

Abrasive Wheels

Course information:

Abrasive wheels are essential equipment in many industries. They are flexible and effective workshop tools but operator inexperience or carelessness in their use can be very dangerous. Serious accidents can and do occur without proper training.

Our courses provide candidates with the knowledge and confidence to operate abrasive wheels safely and effectively, saving their employer time and money.

Who is the course for?

Dale Valley Training offer novice or refresher courses for all of the various types of abrasive wheel.

Course objectives:

To enable course members to understand:

- ✓ *The hazards arising from the use of abrasive wheels & the precautions that should be observed*
- ✓ *Their responsibilities under current legislation*
