

PA6A & AW – Hand Held Applicators (Knapsacks etc)

Course information:

This course prepares candidates to take their City & Guilds NPTC PA6 Hand Held Applicator Module Assessment.

NEW!

Our PA6 courses now include PA6AW module *Spraying in or near water*. We register our PA6 courses with both NRoSO and BASIS as many of our customers supply supermarkets and membership of these organisations is often a supplier or assurance scheme requirement. Members of NRoSO and / or BASIS are required to collect 30 CPD points to maintain their 3-year membership conditions. To date our PA6 courses have been awarded 12 CPD points by both organisations.

Who is the course for?

Our PA6 course is suitable for candidates who hold their City & Guilds NPTC PA1 qualification and wish to use a knapsack or similar hand held applicator to apply pesticides. Candidates will be required to read a pesticide label and use a calculator during their PA6 assessment. Experienced operators may wish to attend our course as a refresher.

Course objectives:

- ✓ To enable candidates to understand their duties as sprayer operatives under current legislation
- ✓ To prepare candidates to become a safe & competent sprayer operative.
- ✓ To thoroughly prepare candidates so that they pass their City & Guilds NPTC PA6A & AW Assessment

Course content: (dependent upon machine type)

- Preparation including legislation, operator safety & environmental factors
